Filing Date: 04/24/96

Inventor: Bowie Gordon Keefer

Examiner: R.H. Spitzer

Art Unit: 1724

Title of Invention: "Flow Regulated Pressure Swing Adsorption"

06 July 6, 1998:

The US Commissioner of Patents and Trademarks  
US Patent and Trademark Office  
Washington, D.C. 21231  
U.S.A.

Sir:

A response to the Office Letter dated 05/12/98 was couriered by Federal Express today July 6, 1998; a copy is attached to this transmission for reference.

Although not mentioned in the applicant's response referenced above, there was also submitted in the courier package a set of drawings printed of DIN Size A4 paper with margins conforming to the specifications outlined in Section 6 of the Notice of Draftsperson's Patent Drawing Review, PTO 948. These drawings have been submitted to correct defects in the left hand margins of the drawings submitted with the original application.

The applicant wishes to thank the examiner for his careful review of the pending application.

Yours sincerely,

Bowie Gordon Keefer
